

TESIL-FIBRES Company Policy

As a global manufacturer of technical fibers, Tesil Fibres s.r.o. aims to be the preferred supplier in all relevant market segments.

We ensure a safe and healthy working environment, prevent occupational accidents, illnesses, cyber threats, and other risks. We protect the environment in accordance with the principles of sustainable development, minimize resource consumption, and prevent pollution. We focus on meeting and exceeding customer requirements, applicable legislation, and other binding requirements. We continuously improve the effectiveness of our management system, processes, products, and technologies based on risk and opportunity management.

We continuously improve product quality and the efficiency of our processes and technologies, while reducing costs. We analyze risks in all processes to avoid future problems and identify opportunities to make the most of them to ensure owner satisfaction.

We develop the professional qualifications of our employees and their awareness of quality, safety, and specific customer requirements, including in the hygiene segment.

We adhere to the policy of our parent company ITERUM and share its values in the areas of quality, sustainability, and responsible business. We are committed to meeting the requirements of IATF 16949, ISO 9001, ISO14001, and GRS (Global Recycled Standard) and ensuring their ongoing compliance.

We uncompromisingly comply with legal regulations, quality and environmental requirements. We implement these requirements into the company's management system and guarantee its continuous improvement.

The company's management provides the necessary resources and responsibility for the implementation of this policy and its continuous improvement.
